ADULT DAY SERVICES

Adult day service provides a protective and stimulating environment for older adults who are in need of daytime supervision. Attendees profit from the array of services offered, while their caregivers receive respite from the pressures and demands of caring for an elderly relative or friend. Benefits include a structured environment, companionship, nutritious meals and a variety of activities under the supervision of professional staff. Personal care, physical and occupational therapy and health monitoring are available at some locations (referred to as medical models).

Adult day service is a cost-effective alternative to in-home services or nursing facility placement. Participation is a welcome change of pace for individuals who are moderately handicapped, physically frail, mildly confused or socially isolated. Daily schedules, fees and services vary. Financial assistance may be available through the Illinois Department on Aging's **Community Care Program**, or the Veterans' Administration.
